

# Football Coach Suspends His Entire Team

A high school football coach suspended all 80 players on his team.

The coach was alerted by a teacher about the bullying and cyber-bullying of a classmate by some of his players. He was also unhappy with players skipping classes, bad grades and disrespecting teachers.

The coach said the players can get back on the team through community service and better behavior off the field.

Instead of practicing, the players have been doing community service. The coach hopes to help the boys build character.

What do you think of the thing that this teacher did to his students?
