

Cristiano Ronaldo Paid For An Operation

Cristiano Ronaldo paid for an operation to save the life of a young child with a brain disorder.

The child's family couldn't pay for the brain surgery needed to save their son's life. The surgery was expected to cost \$83,000. That's a lot of money!

A family friend asked Ronaldo to donate a pair of his soccer shoes so that they could be auctioned. The money would be used to help pay for the life saving surgery.

Ronaldo had a better idea. He simply paid the entire bill himself. In fact, he gave the family \$115,000 to pay for the surgery and his care after the operation. And if that wasn't enough - he also gave them his soccer shoes and a signed jersey.

Wow, I now have a new favorite soccer player!

What do you think of him? Do you think he is a very good person?
